

***Welcome Message from Dr.M.B Pancholi-Host Division – (Coast Chairman) –
ASC/AGM-18-21 April 2018 at Mombasa, Kenya***

Warm welcome to the most popular traveller's paradise of Kenya for a short change from your busy, stressful professional daily life at your workplace.

Our conference team had been working hard under the guideline of National offices with their full-hearted assistance round the clock.

I hope you are comfortable at the venue–old & known but recently refurbished under the baptized title of Nyali Sun Africa Beach Hotel & SPA (NSA.BHS). Please blame me for any short-comings if you experience but thank & congratulate my team if you are happy.

One of the sessions –medical Philanthropy is expected to be an in interesting one, soul-searching, stimulating & if it makes you think in that direction I would feel we have achieved something badly needed in this country for which citizens have been waiting for long time.

There are many tourist attractions in & around Mombasa for those who want their non-professional interests to be met with or fulfilled for example Crocodile Village/Mamba, Snake Park, Haller park-nature trail, Fort Jesus, Ferry-ride, Dhow Safaris, Beach Games, Water Games, & so on.

Welcome again, feel at Home, good luck & happy enjoyable nice times to all of you!

God Bless You.
